Real time Messaging	**Secure Messages**	**Reduce cost and save money**

A complimentary service when you activate your Push to Talk subscription.

IM offers real-time, unlimited instant messages as part of your Push to Talk service. Unlike SMS text messaging, the IM presence indicator lets users know which members are online and available, ensuring messages are delivered to the right person exactly when needed. You can also send instant messages to the entire contact list, single users or multiple users at once.
