WELCOME TO INSTACOM

Personnel Management and Communication Solutions in the palm of your hands...

Vision:

We strive to empower you and your team with efficient & innovative technology.

Mission:

Instacom's mission is to build a long term relationship with every client and create a difference in your workplace by providing a reliable end-to-end personnel management solution and deliver on 24/7 support.

INSTACOM'S CORE VALUES

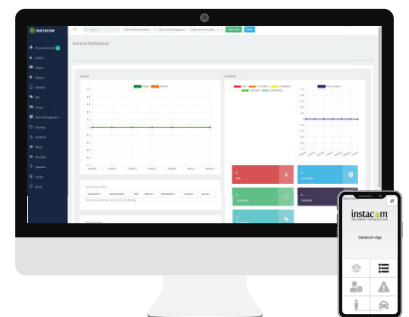

OUR SOLUTIONS

We understand that not all organisations are the same. Each one has its own challenges & requirements. This fact has motivated us to create a service strategy around five core deliverables:

- Intuitive applications that are user-centred
- Reliable infrastructure that inspires confidence
- Fully Rugged Devices designed from inside out to work in extreme conditions
- Foresight to Anticipate and dictate future long term trends
- Align opportunities with Innovation Strategy

We investigate your business processes and analyse your key outputs to create an integrated communication, personnel management and tracking solution to fit your specific needs. Ultimately increasing your efficiency & saving your costs.
